

DATA DICTIONARY

This data dictionary provides a reference for the key variables used in the International Student Recruitment Analytics project. It defines each field included in the analysis, promoting consistent interpretation of the dataset and supporting accurate analysis, reporting, and business decision-making.

Key Variable	Data Type	Description
College	Text	Academic college offering the student's intended program of study.
Degree_Type	Text	Level of study the applicant intends to pursue (e.g., Bachelor's, Master's, Doctorate)
Country	Text	Applicant's country of origin or residence.
University	Text	Institution to which the student submitted an application.
Continent	Text	Geographic continent associated with the applicant's country.
Intake_Major	Text	Intended academic major for the selected admission intake.
Intake_Degree_Type	Text	Degree level associated with the applicant's selected intake.
Intake_Year	Text	Academic year in which the applicant plans to commence studies.
Intake_Season	Text	Academic intake period (e.g. Spring Summer, Fall, Winter).

Intake_Month	Text	Calendar month corresponding to the selected intake.
Application_Source	Text	Indicates whether prospective student application originated through Study Group or Non-Study Group recruitment channels.
Caller_Name	Text	Name of the admissions counsellor or recruitment representative responsible for contacting or managing the prospective student.
Outcome_1	Text	Records the outcome of the most recent communication or engagement activity with the prospective student (e.g., Follow-up Required, Study Group ID, Issue ID).
Status	Text	Indicates the current activity status or result of the latest interaction with the prospective student (e.g., Email Sent, Call to Student, No Activity Logged, Sent for Evaluation).
Attempts	Integer	Total number of communication attempts made to contact or engage the prospective student.
Type	Text	Specifies the communication method used during the interaction (e.g., Call, No Call).
Admitted	Boolean (Yes/No)	Indicates whether the applicant received an admission offer.
Engaged_By_Counselor	Boolean (Yes/No)	Indicates whether the applicant had direct engagement with an admissions counsellor.

Enrolled_Started	Boolean (Yes/No)	Indicates whether the admitted applicant commenced the enrolment process.
Days_Contact_To_Admit	Integer	Number of days between the applicant's first recorded contact and admission decision, used to measure admissions cycle efficiency.
